

# WHERE TO

A resource dedicated to student-athletes  
and their Life after Notre Dame.

# LAND

APRIL 2024

## A NOTE FROM DR. TOM CARTER III

Welcome to our first issue of 2024! We are well into our second year of operations at LAND and revved up to match and even top last year's successes. We will do so by strengthening our connections to one another and building new ones through our dynamic programs and partnerships that serve former Notre Dame student-athletes, managers, and trainers.

We started January with a wish to you all for a "Appy New Year!" In mid-May, the "app" in that declaration will launch. LANDing Pad is designed exclusively for our special community, with features that encourage connection and collaboration across 26 varsity sports and 50 states.

Read the **Spotlight** article on the app's impressive features and **sign up** for immediate access to LANDing Pad at launch. Please encourage other alumni to do the same and before too long, our app will be a game-changer in how we fulfill our mission.

Also in this issue, meet the career services company Shift Group, in **Partnership Place**. Founded by former Division I athletes, Shift Group works with LAND to prepare former student-athletes, managers, and trainers for rewarding careers in sales across a variety of fast-growing industries.

Successful careers depend on building a network, which Head of Talent Ashley Morgan explains in her **Career Connections** article. And **Tom Galloway (ND '87)** and **Jemma Yeadon (ND '20)** describe how their athletic and academic experiences continually inspire them to make a meaningful impact in the world and through their involvement with LAND.

Remember to let us know about jobs, internships, and mentorships you can offer, and we will add them to our database of opportunities - and soon, within our LANDing Pad app! Contact our Program Director, **Brandyn Curry**, to learn more.

Thank you for reading about Project LAND and for your dedication to the health and well-being of former Notre Dame student-athletes, managers, and trainers. Together, we will continue to build the connections that change lives!

Watch for your invitation to Project LAND's Legacy Weekend event on Friday, April 19, from 1 to 3 pm at Legends Restaurant, sponsored by our physical health care service partner, South Bend Orthopaedics (SBO). We look forward to seeing you there.
